

Thorpe Marsh, Doncaster, South Yorkshire

- Former ash disposal facility for power station
- Opportunity for waste disposal identified linked to rail access
- Acquired "off market" for client from Innogy (formerly National Power)
- Planning Permission being pursued for integrated waste management facility linked to existing railhead

Testimonial

"Hawksmoor have assisted Banks Developments in securing land interests in a number of major development projects including the former Thorpe Marsh power station. I know of no other firm who can equal their commercial input and determination to complete a successful transaction."

J Dickenson, Managing Director, Banks Developments
