

Wheel Lane, Lichfield, Staffordshire

- Former petrol filling station site and MOT testing station
- Site acquired "off market" by private treaty for a Regional Housebuilder
- Site now developed for high density residential units in prime location close to Lichfield City centre
- Hawksmoor identified the site and its availability and potential and conducted negotiations against a background of competitive interest from other parties

Testimonial

"Hawksmoor introduced the site to our Company and negotiated a purchase price, which needed to account for a number of complex technical issues. We found their approach positive, proactive and professional"

I Burns, Managing Director, Cameron Homes Limited
