

Marr Lodge Wind Farm, Doncaster, South Yorkshire

- Agricultural land adjacent to the A1(M) situated approximately five miles west of Marr, South Yorkshire.
- Planning permission granted by Doncaster Metropolitan Borough Council following referral to the Government Office for Yorkshire and the Humber.
- Hawksmoor progressed negotiations for off-site highway improvements and the wind farm option and lease agreement with the landowner's agent through a successful conclusion.
- Once completed, the scheme will provide renewable electricity for approximately 6,500 households, significantly contributing to the Regional Spatial Strategy renewable resources requirements by 2010 and meeting UK Governments national energy goals.
- Site works to commence in 2008.

Testimonial

"Hawksmoor were employed by Banks Developments to negotiate the terms and secure all land rights for the Marr wind farm. The nature of the project demanded tight timescales to maximise the chance of success. Hawksmoor quickly and professionally completed their brief, which ultimately had a significant bearing on the site receiving planning consent. Hawksmoor provide a unique service to land developers who want deals done, and with a minimum of fuss. I would certainly recommend them to others."

Phil Dyke, Managing Director, Banks Renewables Limited
